

## ATIVIDADE DE MATEMÁTICA – 1º ANO

NOME: \_\_\_\_\_ DATA: \_\_\_\_/\_\_\_\_/\_\_\_\_

1 - VAMOS SUBTRAIR OS PONTOS DOS DOMINÓS COMO NO EXEMPLO:

|                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  -  =        |  -  =        |
|  -  =        |  -  =        |
|  -  =  |  -  =  |
|  -  =  |  -  =  |
|  -  =  |  -  =  |
|  -  =  |  -  =  |
|  -  =  |  -  =  |

2- COLOQUE OS RESULTADOS ACIMA EM ORDEM CRESCENTE E DECRESCENTE NO SEU CADERNO.
